

DSP129

20W 4" Commercial Mini Satellite Speaker with Power Tap

Description

This wall-mounted speaker is a commercial PA system suitable for a variety of applications, including offices, hotels, bars, and shopping malls. It offers a rated output power of 20W, compatible with 100V constant voltage and 16Ω low impedance, and includes selectable power taps. Equipped with a 4" coaxial driver, it delivers exceptional sound quality in a compact, tidy package, and allows for quick installation using mounting brackets.

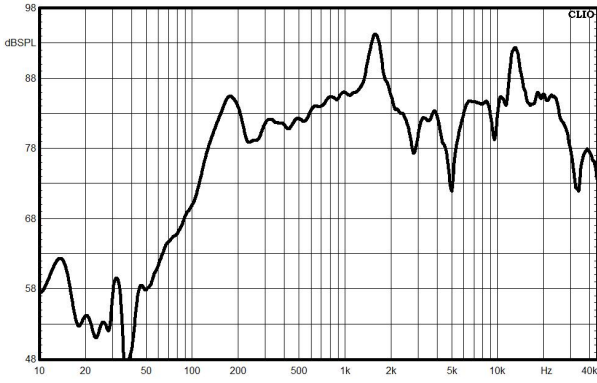

Features

- Type: Commercial PA system wall-mounted speaker.
- Rated power: 20W - compatible with 100V constant voltage and 16 Ω low impedance.
- Power taps: Selectable power taps available based on user requirements.
- Driver: 4" coaxial driver unit.
- Installation: Quick and easy mounting with brackets.
- Design: Compact, neat appearance with extraordinary sound quality.
- Applications: Ideal for public address systems in offices, hotels, bars, and shopping malls.

Specifications

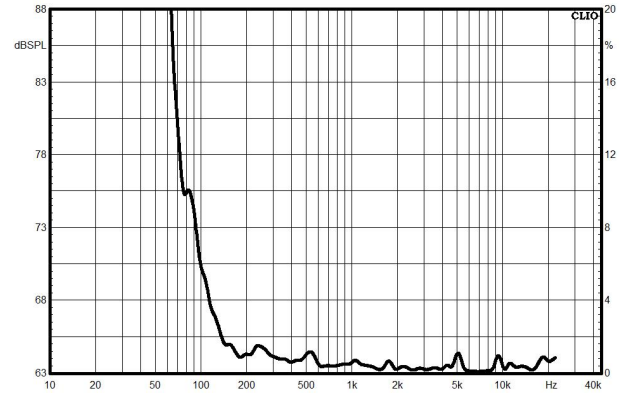

Model	DSP129
Woofer	4" paper cone
Frequency Response (±3dB)	120Hz-20kHz
RMS Power	20W
Sensitivity	84dB±2dB
MAX. SPL. (1m)	97dB±2dB
Constant Voltage	100V: 10W/20W
Nominal Impedance	16Ω
Attachment	Bracket / Screw
Product Dimensions	148×127×138 mm
Housing Material	ABS
Net Weight	1.23kg

Frequency Response
(dB SPL, 1W, 1m)

Distortion

(THD < 4% 1W, 1m, 100Hz-10kHz)

Impedance
