

DSP928

60W Coaxial Commercial In-ceiling Speaker with Power Tap

Description

The DSP928 60W Coaxial Commercial In-ceiling Speaker with Power Tap is designed for public address and background music systems, delivering powerful and consistent audio performance for distributed sound applications in larger spaces.

Equipped with a 6.5-inch woofer and a 0.75-inch tweeter, it provides extended low-frequency response and higher sound output, with a frequency range of 80Hz–20kHz and a maximum SPL of up to 110dB. The integrated rear enclosure enhances acoustic stability and minimizes sound leakage, ensuring reliable performance in a wide range of installation environments.

Features

- 60W high-power coaxial ceiling speaker designed for commercial PA and background music systems.
- 6.5-inch woofer combined with a 0.75-inch tweeter for enhanced low-frequency performance and balanced sound output.
- Wide frequency response (80Hz–20kHz) with max SPL up to 110dB for high-output sound coverage.
- Coaxial driver structure provides consistent dispersion and uniform listening experience.
- High-quality paper cone driver ensures stable acoustic performance and natural tonal reproduction.
- Integrated metal back can design improves installation consistency and reduces sound leakage.
- Durable engineering plastic front panel with corrosion-resistant rear enclosure for long-term use.

Specifications

Model		DSP928
Speaker Unit		6.5"×1, 0.75"×1
Rated Power (RMS)		60W
Input	70V	7.5W-15W-30W-60W
	100V	15W-30W-60W-*
	8Ω	60W
Sensitivity (1m, 1W)		92dB±2dB
MAX. SPL. (1m)		110dB±2dB
Frequency Response		80Hz~20kHz
Dimensions (W×H)		∅ 265×240mm
Weight		4.2kg
